Unique Mechanical Features

- **Interlocking cam**
An extra protection against extraction pulling attempt
- **Reinforcement Bar**
Enhanced resistance to extraction attack (pull attack protection)
- **Emergency function**
Operated with keys inserted and rotated on opposite sides, enabling both sides to be permanently operational
- **School function**
Set the thumb turn to open-only function
- **Anti ligature**
Innovative thumb turn with emergency override mechanism, specially designed to address the risk of self-harm within psychiatric and probationary facilities
